Texas A&M AgriLife Hemp Testing Services

Texas A&M AgriLife has expanded its capacity to provide Hemp Potency testing at three locations.

News release on this effort: [Growing season hemp potency testing available through Texas A&M AgriLife](#)

This testing is for researchers, growers and/or formulators who are monitoring crop growth and potency or determining changes in product quality based on storage, handling, or processing. Our testing services rely on the [Ionization Labs Hemp Testing Platform](#), utilizing HPLC technologies to provide an accurate and precise analyses. Our hemp test provides a comprehensive panel of 14 cannabinoids, including:

CBC, CBD, CBDV, CBG, CBN, CBCA, CBDA, CBDVA, CBGA, CBNA, THCA, THCV, THC-Δ8, and THC-Δ9.

All samples must be documented on the downloadable Chain of Custody forms found below:

Payment for services is limited solely to online payments through the Texas A&M University Marketplace. No other payment is accepted.

AgriLife Hemp Testing Laboratories
