

You are able to log into Dimensions using your institutional login details.
This works as follows -

1. Simply go to app.dimensions.ai, and click on “Log in” in the top right corner of the page.

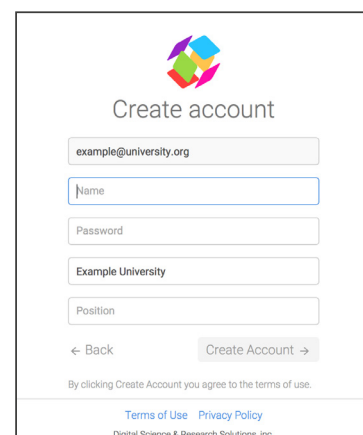

The screenshot shows the Dimensions website interface. At the top right, the 'Log in' button is highlighted with a pink box and a pink arrow. The main content area displays search results for 'e.g. plastic AND instrument', including filters for publication year, a list of publications with citation and altmetric counts, and an analytical views sidebar on the right.

2. On the next screen enter your institutional email address.
3. This will be recognised, and you will be redirected to the institutional SSO login page for authentication. (PLEASE NOTE - The first time that you do this, you will be required to confirm your identity by a verification code which is sent to your email address, and must then be input into the system. There then follows a screen where you need to confirm your details for account registration, which looks like the “Create account” picture here)
4. Once you are authenticated, you are automatically returned to the Dimensions page where you will be logged in, see all five data types, and be able to save searches and export results lists (with up to 5,000 results per download).

The screenshot shows a form titled 'Enter your email' with a text input field for 'Email' and a 'Next →' button.

The screenshot shows a form titled 'Create account' with the following fields: 'example@university.org' (pre-filled), 'Name', 'Password', 'Example University', and 'Position'. There are '← Back' and 'Create Account →' buttons. At the bottom, it states: 'By clicking Create Account you agree to the terms of use.' with links for 'Terms of Use' and 'Privacy Policy'.
